THE VISION

In 2015, PRA Consultancy, realized the importance to bridge the gap between Regulatory Authorities and the Pharma Industry. They launched a platform where Regulatory Authorities could discuss new and updated regulations in the Pharmaceutical market with the Pharma Industry.

With the support of Ministry of Health UAE, the GCC Regulatory Affairs Pharma Summit was launched and after its success became an annual institution for GCC Countries and neighbouring in visiting countries.

The Summit hosted all the Authorities in one event providing transparency and stabilizing regulations in the region. At this time the UAE government was developing into a smart city and was moving its application process to a digital medium. The GCC Regulatory Affairs Pharma Summit became a perfect platform to communicate the new processes to the Industry. In addition, it presented opportunity for all GCC Countries to symbiotically advance their Regulatory application processes and through discussion and knowledge sharing improved the processes of the GCC region and streamlining GCC Pharma Regulations.

The Region is still growing, and many new Regulations are issued for the Pharmaceutical Industry. The GCC Regulatory Affairs Pharma Summit created a platform where Pharma Industries could learn about the regulations and how they could enter and safely distribute their products through the GCC Market. It has become the premier event to connect Industry with the GCC Pharmaceutical Regulations Authorities.

2020, brought its own challenges and the GCC Regulatory Affairs Pharma Summit was successfully hosted Virtually, for the first time. 2021 saw a 29% growth in the online attendance, and 2022 had a 20% growth for the onsite participants.

2022 the focus was on sponsors and networking with a purposefully built agenda to create engaging sessions, panel discussions and round tables.

The networking was highly successfully managed by the sponsorship manager in the lobby together with the Sponsors at their Exhibition tables.

2022 GCC Regulatory Affairs Pharma Summit created a platform where colleagues and friends could connect face to face in a like minded environment after 2 years of online events.

We are proud to have been part of the **GCC Regulatory Affairs Pharma Summit 2022** alongside the **Ministry of Health and Prevention - UAE, GSI, and Pfizer** to discuss the Tatmeen platform in a panel titled **Track and Trace GCC**. It was a great opportunity to discuss the implementation of Tatmeen, the track and trace solution for pharmaceuticals in the **#UAE** which aims to strengthen the country's **#healthcare** supply chain.

Timelines and updates on the program were shared as the platform goes live in December 2022.

The Healthcare industry is a key pillar of UAE's vision and with the Tatmeen platform, we are supporting this vision put forth by the leadership.

We encourage you to visit www.tatmeen.ae to learn about the full program.

Interview Article - Track and Trace.pdf

Track & Trace: Implementation, Impact, & Future in the GCC & UAE Pharma Industry

Track and trace for pharmaceuticals enables pinpointing any item's current and past locations in the supply chain. It's a powerful tool that no pharma company can do without, especially as regulations mandate track and trace capabilities and specific requirements for recording and sharing supply chain data.

At the 7th edition of GCC Regulatory Affairs Pharma Summit, Track and Trace will be addressed as one of the major topics by the panel of field professionals and governmental authority members, and they are: Mr. Ali Jumra Alaiyne, the Director of Digital Health Department at UAE Ministry of Health and Prevention, Mr. Rami Habib, the Chief Executive Officer at GPC, Dr. Lamees Yousef, the Senior Regulatory Affairs Manager at Pfizer, and Mr. Bahaa AbuSalem, the Program Director of Tahseen at Evolve.

With Mr. Bahaa AbuSalem, we were able to get insights on Track and Trace and its impact on the pharma Regulatory affairs, to which he mentioned: "The counterfeit drugs problem has become a major issue over the last few years. To counter this, governments have been

I thoroughly enjoyed my time at the GCC Regulatory Affairs Pharma Summit. GCC Regulatory Affairs Pharma Summit

It has been a long time since I, colleagues and friends were able to attend an event in person, socialize and network.

A significant contributor to the Summit's success is the built-up desire for network after what has been a challenging period.

Over the past five years, I have been blessed with an ever-expanding family. My focus was to support my children's development - although, unable to progress in my career development, other than freelancing part-time while studying at the University of Hertfordshire.

The Summit was a fundamental turning point, giving me the confidence to network once again and partake as a speaker.

Thank you so much 😊

With the above in mind and my family's support, I am ready to dive back into my career full-time.

Dear connections, feel free to contact me or guide me if you hear of available roles in PV and Regulatory affairs.

I promise the only thing 'infectious' about me is my enthusiasm 😊

Conclusion

7th GCC REGULATORY AFFAIRS PHARMA SUMMIT 2022

The first onsite Summit after the COVID Pandemic was exceptional.

With the support of Ministry of Health UAE, Oman MoH, Bahrain's NHRA, Jordon Federal Drug Authority, Kurdistan Medical Control Agency, Iraq's MoH, Qatar MOH and visiting countries Ethiopia, Tunisia and the United Kingdom and the Pharma Industry it created a buzz of discussions, creating improved the relationships between Authority and Industry.

Authorities not only discussed updates, but collaborated in open forum discussions to implement improvements, support the industry understanding and learnt from each other about their processes.

Exciting sessions like e- labeling was discussed in length from Industry and Authority's point of view with time lines and processes forged. Moderators drove the Speakers discussions chairing and mediating between the Audience and Panels.

Outside the Auditorium in the Lobby, sponsors successfully connected and networked with Pharma Industry companies and individuals, and even had

opportunities to speak to MoH's to discuss business within the Ministries, successfully meeting their ROI Targets.

We are Proud to support the growth of the Pharma Industry in our region and are looking forward to the future of the GCC Regulatory Affairs Pharma Summit to connect Pharma Industry leaders and developers and Authorities in 2023.
